What is EndNote?

- EndNote is **reference management software**. It allows you to organise references into your own personal database.
- You can keep a record of all the journals, books, conference papers and other documents you use during your study or research in one place.
- You can create **bibliographies** and **insert references** directly from your EndNote library into documents you are writing in a reference style that you choose.

EndNote Online is a free, limited online version of EndNote

- Create an online account to search, save and use your research sources.
- Use built-in connections to search the 5 most popular databases.
- Save and organize the references you find (up to 50,000) in databases such as those provided via CIAP.
- Integrate with Microsoft® Word to properly cite and format your paper.
- Choose from 21 of the most popular bibliography formats, including MLA and APA style when writing papers.

Getting Started

Collect references by searching online databases or importing your existing collection.

- Search an online database
- Create a reference manually
- Import references
- **NEW!** Find your best potential journal

Organize and group references in any way that works for you. Then share your groups with colleagues.

- Create a new group
- Share a group
- Find duplicate references

Use our plugin to **format** bibliographies and cite references while you write.

- Cite While You Write™ Plug-In
- Create a formatted bibliography
- Format a paper

Getting started...

The screenshot shows the EndNote software interface. At the top left is the Clarivate Analytics logo and the text 'EndNote'. On the right side of the top bar are a grid icon and a user profile icon. Below this is a navigation bar with the following items: 'My References' (underlined), 'Collect', 'Organize', 'Format', 'Match', 'Options', and 'Downloads'. In the top right corner of the main content area, there is a link that says 'Hide Getting Started Guide'. On the left side, there is a sidebar with a 'Hide panel' button. The sidebar contains a 'Quick Search' section with a search input field, a dropdown menu set to 'All My References', and a 'Search' button. Below that is a 'My References' section showing 'All My References (3155)', '[Unfiled] (2)', and 'Quick List (0)'. There is also a 'Trash (6) Empty' button. The bottom section of the sidebar is 'My Groups', which is expanded to show several groups with their respective member counts and icons: '2019 (44)', '4th year (2)', 'Advanced Practice Nursing (0)', 'Aged care Telemedicine (15)', 'Amputation (4)', 'Anesthesia (5)', 'ANG (52)', 'Ang-Sophie Mental Health (Ave... (9)', and 'Ang-Sophie Mental Health (Inf... (4)'. The main content area features a large heading 'Getting Started' with a red arrow pointing to it from the right. Below this heading are three columns of content, each with an icon and a title: 1. A magnifying glass icon followed by the title 'Find'. Below it is the text 'Collect references by searching online databases or importing your existing collection.' followed by a bulleted list: 'Search an online database', 'Create a reference manually', 'Import references', and 'NEW! Find your best potential journal'. 2. An icon of two people followed by the title 'Store & Share'. Below it is the text 'Organize and group references in any way that works for you. Then share your groups with colleagues.' followed by a bulleted list: 'Create a new group', 'Share a group', and 'Find duplicate references'. 3. A document icon with a quote mark followed by the title 'Create'. Below it is the text 'Use our plugin to format bibliographies and cite references while you write.' followed by a bulleted list: 'Cite While You Write™ Plug-In', 'Create a formatted bibliography', and 'Format a paper'.

Abstract:

The 2013 American College of Critical Care Medicine/Society of Critical Care Medicine clinical practice guidelines for the management of pain, agitation, and delirium in adult patients in the intensive care unit serves as a living example of nurses' involvement in the development and implementation of professional guidelines. Nurses who served on this guideline-writing panel describe their experiences. Specific examples from the pain, agitation, and delirium guidelines for care are used to explore the roles of the nurse leader, nurse informaticist, staff nurse, and nurse researcher in relationship to guideline implementation. The 2013 American College of Critical Care Medicine/Society of Critical Care Medicine clinical practice guidelines for the management of pain, agitation, and delirium in adult patients in the intensive care unit serves as a living example of nurses' involvement in the development and implementation of professional guidelines. Nurses who served on this guideline-writing panel describe their experiences. Specific examples from the pain, agitation, and delirium guidelines for care are used to explore the roles of the nurse leader, nurse informaticist, staff nurse, and nurse researcher in relationship to guideline implementation.
